TAMU

DNA

DAY

2018

Research Poster Fair

Researchers from 13 different departments at Texas A&M University will present their past, current, and future research.

Dr. Catherine Ball from Ancestry.com: *Lessons learned from 7 million human genomes*

Rudder Theatre | 6:30pm - 7:30pm

Open to the Public

Catherine Ball, Ph.D.

Chief Scientific Officer for AncestryDNA

Dr. Catherine Ball has served as Chief Scientific Officer for AncestryDNA since September 2016. She received a B.S. in Biology and a Ph.D. in Molecular Biology from the University of California, Los Angeles. Dr. Ball's career has focused on helping people around the world appreciate, understand and use their own genomic data.
